Profile

Information Systems student at Tarumanagara University with hands-on experience in database record verification, user technical support, and bug reporting for a registration system. Skilled in SQL, Python, and ETL, with coursework and projects in system analysis (DFD, ERD) and UI prototyping (Figma). Seeking a 6-month full-time IT/IS internship, available from January 2027.

Education

Tarumanagara University Aug 2024 - Present

Faculty of Information Technology, Information Systems | GPA : 3.80 out of 4.00

Relevant Courses : Analysis & Design of Information Systems, Database Systems, Software Development, ETL & Data Warehouse, Big Data.

Work Experience

Admissions Intern Mar 2026 - Present

- Maintained a 98% accuracy rate across 150+ prospective student application records by verifying entries in the database system.
- Supported 60+ prospective students and parents through the registration workflow by resolving technical issues and relaying recurring problems to the team.
- Improved the registration user experience by identifying UI issues and reporting them to the development team.

Teaching Assistant Feb - Jun 2026

- Guided 40+ students in SQL and statistics practicum sessions.
- Evaluated 7+ assignments and practical exams with structured written feedback.
- Acted as a primary liaison between professors and students to streamline communication and resolve technical issues.

Projects

Retail Data Warehouse & ETL (Group of 4) | SQL Server

- Built the warehouse structure and core ETL (data cleansing, initial/incremental loads, SCD Type 1 and 2) to integrate POS and loyalty data for customer retention KPIs.

PetCareHub Platform | Figma, PHP, MySQL, JavaScript

- Built a multi-role clinic management app for scheduling, animal health cards, and medicine inventory with automated stock monitoring.

Cirebon Weather Study | Python, Pandas, Matplotlib, Seaborn

- Cleaned and analyzed BMKG climate data to identify seasonal shifts and rainfall anomalies.

Organizational Experience

Badan Eksekutif Mahasiswa FTI Untar Jul 2025 - Jun 2026

Vice Head, Talent & Interest Department

- Led a 5+ member department: translated department goals into clear job descriptions, assigned tasks to each member, and tracked every deliverable against its scope.
- Designed and ran KPI-based evaluation meetings and reported results to the General Chairperson.
- Screened and interviewed 20+ candidates against competency requirements.

Skills & Tools

Technical: SQL, Python, C++, HTML, CSS, PHP, Oracle Database, ETL & Data Warehouse, JavaScript

Tools : Figma, Canva, Microsoft Office (Word, Excel, PowerPoint), Google Workspace

Languages : Indonesian (Native), English (Reading: Intermediate, Writing: Basic, Speaking: Basic)
